Mercer County High School

2020-2021 GUIDE TO REGISTRATION AND COURSE DESCRIPTIONS

As you read through the course description booklet, keep in mind not all classes are taught every year and at all grade levels. Refer to the course list included in your registration packet for the list of classes being offered during the 2020-2021 school year.

Notice of Nondiscrimination

The Mercer County Unit School District will not discriminate and will provide equal educational opportunities for all students, including vocational education students, without regard to race, color, national origin, ancestry, sex, ethnicity, language barrier, religious beliefs, physical and mental handicap or disability, or economic and social conditions, or actual or potential marital or parental status.

INTRODUCTION

This guide to Registration has been compiled to assist you in selection of classes for next year. It includes a complete list of requirements for graduation (page 4 and 5), College entrance requirements (page 6), Request for early graduation procedure, requirements and signature sheet (page 7-9), NCAA guide for college-bound athlete (page 10-11), classes offered at Mercer County High School, plus a description of each course you might take, including prerequisites and fees (pages 13-40).

Each student will be provided a registration packet listing required classes and electives appropriate to their grade level. All students are encouraged to review the Course Description Guide and make sure that all prerequisite requirements are met before selecting classes. If students need additional help due to uncertainties in their education or vocational decision-making plan, students should seek help from the counselor's office.

Computer scheduling will be used to provide fewer class conflicts and a greater chance for you to enroll in the courses you really wish to take. Students will be given an opportunity to meet in the counselor's office to adjust their schedule. **After this point, schedule changes will be held to a minimum. Only extreme circumstances will warrant a schedule change after June 1, 2020.**

Students are advised that, whether scheduling is done manually or by computer, certain course selections will cause personal difficulty in scheduling. The master schedule is designed according to the selections of the majority. Thus, if the student selects a class which is 1) a single section, 2) out of track (college-bound student selects one non-college course), or 3) out of grade level (senior selects a basically sophomore level course), they may have more difficulty getting into that particular class.

A section which should be of special interest to all students is entitled "How to Prepare for College" (page 6). Even for those not planning to attend college, it can be used as a system for planning your future.

Students are required to register for 7 credits. Academically strong students may take 8 credits.

Graduation Requirements for Mercer County High School

English (4 credits) English I, English II, English III, & English IV or Eng. IV Comp. I & II (2nd Semester Eng IV can be replaced by an English elective)	4 credits total
Social Science (2 credits) American History or DC US History (1 credit) Civics (1/2 credit) Social Science Elective (1/2 credit)	2 credits total
Mathematics (3 credits) Math I (1 credit) Geometry content (Math 2 Foundations/Math 2) (1 credit) Additional Math (1 credit)	3 credits total
Science (2 credits) General Science (1cr.), Applied Science (1cr.) or Biology (1 cr.)	2 years total
Physical Education (4 credits) (1/2 credit may be waived during the semester in which Health is taken)	4 credits total
Health (1/2 credit)	1/2 credit total
Consumer Education (1/2 credit) (May be met by taking Cons. Ed, or Ag. Business Management I & II.)	1/2 credit total
Required Electives (1 credit) Foreign Language, Vocational Education, Art or Music	1 credit
Required credits	16.5
Additional Electives	10.5
Total credits to graduate from Mercer County High School	27 credits

Students shall pass an examination on the Declaration of Independence, the Flag of the United States, the Constitution of the United States, and the Constitution of the State of Illinois. In order to proceed normally toward graduation a student must enroll in at least 7 credits per year. No credit will be awarded for completion of less than a semester's work.

Graduation Requirements for Mercer County High School (Starting with the Class of 2022)

English (4 credits) English I, English II, English III, & English IV or Eng. IV Comp. I & II (2nd Semester Eng IV can be replaced by an English elective)	4 credits total
Social Science (2 credits) American History or DC US History (1 credit) Civics (1/2 credit) Social Science Elective (1/2 credit)	2 credits total
Mathematics (3 credits) Math I (1 credit) Geometry content (Math 2 Foundations/Math 2) (1 credit) Additional Math (1 credit)	3 credits total
Science (3 credits) Biology (1 cr.) Additional Science (2 credits)	3 years total
Physical Education (4 credits) (1/2 credit may be waived during the semester in which Health is taken)	4 credits total
Health (1/2 credit)	1/2 credit total
Information Processing 1A (1/2 credit)	1/2 credit total
Consumer Education (1/2 credit) (May be met by taking Cons. Ed, or Ag. Business Management I & II.)	1/2 credit total
Required credits	17.5
Additional Electives	9.5
Total credits to graduate from Mercer County High School	27 credits

Students shall pass an examination on the Declaration of Independence, the Flag of the United States, the Constitution of the United States, and the Constitution of the State of Illinois. In order to proceed normally toward graduation a student must enroll in at least 7 credits per year. No credit will be awarded for completion of less than a semester's work.

COLLEGE ENTRANCE REQUIREMENTS

After meeting the State of Illinois graduation requirements, students have 10.5 additional elective slots over a four year period of time to meet their specific college entrance requirements.

College Preparatory Plan

- 4 cr. English (emphasizing written and oral communications and literature)
- 3 cr. Social Science (emphasizing history and government)
(Units required vary depending on the college. Check with colleges for specific requirements)
- 4 cr. Mathematics (starting with Math I or Math II)
- 3 cr. Science (minimum of two laboratory sciences required)
- 2 cr. Foreign Language (check with colleges for exact foreign language requirements)
- Additional electives in chosen career field (Students should consult with the counselor's office to determine which courses are most appropriate.)

PCCS Partners for College and Career Success

- 4 cr. English
- .5 cr. Emphasizing oral communication (Speech)
- 3 or 4 cr Math – must include Math I (Algebra) and Math II (Geometry)
- 2 cr. Science – 2 years of laboratory science
- 1 cr. Keyboarding/Comp. Formatting – 1 semester / Computer Applications – 1 semester
- 1 cr. Technical/Vocational Careers – Orientation level
- 2 cr. Technical/Vocational Careers – Technical/Training level
- 2 cr. Social Science – US History, Civics, and .5 other Social Science credit
- 4 cr. PE and Health – 3 ½ year PE, ½ year Health
- Additional electives as possible to strengthen preparation

HOW TO PREPARE FOR COLLEGE

If you plan to go to college, consider the following:

1. Determine as early as possible whether or not you plan to attend college. Discuss these plans with your parents; seek the advice of the high school counselor and college representative. Check out www.isac.org
2. Select your college early so that you can research the college. Find out exactly what subjects are required for entrance to both the college or university and the field in which you plan to major. Then, plan your high school courses so that you will have taken the subjects needed to enter college.
3. Colleges and universities are most interested in students who rank in the upper half of their graduating class; some schools require that students rank in the upper quarter or higher.
4. If possible, plan to visit the college of your choice during vacation periods prior to your senior year. In reality, a college campus may not be what the mind's eye sees through the catalog or website. (Most colleges provide college visits on Saturday morning for the convenience of students and parents.)
5. Attend college nights when appropriate. MCHS hosts one during Parent/Teacher Conferences in October each year. (Black Hawk College Night is held every fall in Mid-October with over 60 college reps attending)
6. Talk to college representatives when they visit the high school.
7. Remember, the best source of specific college/university entrance requirements is the college catalog or website.
8. Check with the college of your choice for the foreign language requirements.*

Mercer County Community Unit School District #404

Request for Early Graduation

Student Name: _____ Date of Request: _____

Probable Graduation Date: _____

*Student – please type your reason for application of early graduation on a separate sheet to turn in with application

Procedure: A student may apply in writing for early graduation upon completion of seven semesters of school attendance if all graduation requirements are met. A letter explaining why early graduation is desired and a completed “Request for Early Graduation” form must be submitted prior to the beginning of the 7th semester. The letter and form are submitted to the school counselor.

The school counselor notifies the Principal of a student request. The counselor verifies the student’s acceptability for early graduation. The Principal approves or denies the request and forwards it to the Superintendent. Based upon the recommendation of the Superintendent, the School Board grants permission for early graduation.

Upon successful completion of the seventh semester classes, a final transcript is issued that shows the student’s completion of all graduation requirements as established by the Board of Education. This ends the student’s enrollment at Mercer County High School. Students graduating early will forfeit the opportunity for all academic distinctions (ex: valedictorian, Top 10, etc). The student is also not eligible for school activities such as IHSA sponsored activities, cheerleading, dance, etc. The student may not attend Prom unless invited by a eligible, currently enrolled student. In this case, the student would be considered as a guest.

A student who graduates early may participate in the graduation ceremony at the end of the school year in which he/she graduated early if conditions are met. The student must attend the graduation rehearsal. Per discretion of Mercer County School District, the student must maintain and display appropriate behavior in the community during the semester while not in attendance. Mercer County High School assumes no responsibility for the ordering of a cap, gown, and/or announcements for graduation. The student may participate only with items ordered at the school from the approved vendor/supplier.

A student who graduates early may write for Mercer County High School scholarships with the understanding that attendance at the Awards Night in May is highly recommended if awarded scholarships.

Graduation Requirements: To be eligible for early graduation from Mercer County High School, a student must have completed the following total credits for the classes indicated:

Class of 2021

English - 4 credits

(English I, English II, English III, and an additional credit of a combination of English IV, English Comp., Speech, Creative Writing, Myths and Legends, and/or Novels)

Math – 3 credits

(one year of Algebra content, one year of Geometry content and an additional year)

Science – 2 credits

(one year has to be Biology)

Social Studies – 2 credits

(Civics, American History and an elective)

Consumer Ed - .5 credit

Health - .5 credit

Physical Education – 4 credits

(may waive for athletic participation, course load, and/or Health)

General Electives – 11 credits

Total Credits Required = 27

Classes of 2022 and beyond

English – 4 credits

Math – 3 credits

Science – 3 credits

Social Studies – 2 credits

Consumer Ed - .5 credit

Health - .5 credit

Physical Education – 4 credits

Information Processing - .5 credit

General Electives – 9.5 credits

Total Credits Required = 27

Parent/Guardian Permission: “I understand and will comply with the Board of Education policy on early graduation. I understand that upon early graduation, my student loses IHSA athletic eligibility and loses participation privileges in extracurricular activities one of which is Prom. I understand that my student is entitled to participate in graduation exercises, if all practices are attended, behavior during the Spring semester warrants, and if my student orders, purchases, and wears the approved cap and gown as provided by the school approved vendor.”

Parent/Guardian Signature _____ Date: _____

Student Statement of Compliance: “I attest that I have read the above information and will comply with all regulations and expectations as presented. I now indicate my desire to graduate early.

I (circle one) WILL WILL NOT participate in the graduation exercise.”

Student Signature _____ Date: _____

School Counselor Certification: “I certify that _____ will meet the graduation requirements as prescribed by the Mercer County CUSD #404 Board of Education and the State of Illinois if he/she successfully completes all of the classes scheduled for the next semester.”

Mercer County High School Counselor Signature _____ Date: _____

Principal Approval: _____ Approved _____ Not Approved

Principal Signature _____ Date _____

Superintendent Approval: _____ Approved _____ Not Approved

Superintendent Signature _____ Date _____

Board Approval: _____ Approved _____ Not Approved

Board Signature _____ Date _____

QUICK REFERENCE

KNOW THE RULES:

Core Courses

NCAA Division I requires 16 core courses as of August 1, 2008. This rule applies to any student first entering any Division I college or university on or after August 1, 2008. See the chart below for the breakdown of this 16 core-course requirement.

NCAA Division II requires 16 core courses. See the breakdown of core-course requirements below.

Test Scores

Division I has a sliding scale for test score and grade-point average. The sliding scale for those requirements is shown on page two of this sheet.

Division II has a minimum SAT score requirement of 820 or an ACT sum score of 68.

The SAT score used for NCAA purposes includes **only** the critical reading and math sections. The writing section of the SAT is not used.

The ACT score used for NCAA purposes is a **sum** of the four sections on the ACT: English, mathematics, reading and science.

All SAT and ACT scores must be reported directly to the NCAA Eligibility Center by the testing agency. Test scores that appear on transcripts will not be used. When registering for the SAT or ACT, use the Eligibility Center code of 9999 to make sure the score is reported to the Eligibility Center.

Grade-Point Average

Only core courses are used in the calculation of the grade-point average.

Be sure to look at your high school's list of NCAA-approved core courses on the Eligibility Center's Web site to make certain that courses being taken have been approved as core courses. The Web site is www.eligibilitycenter.org.

Division I grade-point-average requirements are listed on page two of this sheet.

The Division II grade-point-average requirement is a minimum of 2.000.

DIVISION I

16 Core-Course Rule

16 Core Courses:

- 4 years of English.
- 3 years of mathematics (Algebra I or higher).
- 2 years of natural/physical science (1 year of lab if offered by high school).
- 1 year of additional English, mathematics or natural/physical science.
- 2 years of social science.
- 4 years of additional courses (from any area above, foreign language or nondoctrinal religion/philosophy).

DIVISION II

16 Core-Course Rule

16 Core Courses:

- 3 years of English.
- 2 years of mathematics (Algebra I or higher).
- 2 years of natural/physical science (1 year of lab if offered by high school).
- 3 years of additional English, mathematics or natural/physical science.
- 2 years of social science.
- 4 years of additional courses (from any area above, foreign language or nondoctrinal religion/philosophy).

NCAA FRESHMAN-ELIGIBILITY STANDARDS

OTHER IMPORTANT INFORMATION

- Division II has no sliding scale. The minimum core grade-point average is 2.000. The minimum SAT score is 820 (verbal and math sections only) and the minimum ACT sum score is 68.
- 16 core courses are currently required for Division II.
- 16 core courses are required for Division I.
- The SAT combined score is based on the verbal and math sections only. The writing section will not be used.
- SAT and ACT scores must be reported directly to the Eligibility Center from the testing agency. Scores on transcripts will not be used.
- Students enrolling at an NCAA Division I or II institution for the first time need to also complete the amateurism questionnaire through the Eligibility Center Web site. Students need to request final amateurism certification prior to enrollment.

**For more information regarding the rules, please go to www.NCAA.org. Click on “Academics and Athletes” then “Eligibility and Recruiting.” Or visit the Eligibility Center Web site at www.eligibilitycenter.org. Please call the NCAA Eligibility Center if you have questions:
Toll-free number: 877/262-1492.**

Dual Credit/Distant Learning at Mercer County High School

Black Hawk College English Composition I and II, Greenhouse Production Hort. Dual Credit I & II, Agricultural Metal Fabrication Dual Credit Welding I & II, Psychology 101, and Sociology 101 are dual credit classes offered at Mercer County High School. Please check with the school counselor for additional information on these and other course offerings.

Dual Credit/Distant learning is popular in most states throughout the United States. Distant learning allows upperclassmen to enroll in a concurrent education program while attending high school. During the 2020-2021 school year Mercer County High School students meeting the Accuplacer test requirements will have two ways to participate in distant learning.

1. Seniors may commute to the BHC/WIU-QC campus for classes. This will allow students to participate in classes not offered at MCHS. (Students must register for at least 4 classes per semester at Mercer County High School (Study Hall not included) and be on target for graduation, plus 5-6 additional credits at Black Hawk College)
2. Juniors and Seniors may register for dual-enrollment courses. Students may receive high school and college credit simultaneously if they meet qualifying Accuplacer scores and the class is taught at Mercer County High School. **Students are always responsible for college tuition and book fees.**

Students wanting to participate in Dual Credit/Distant Learning:

1. Must complete a Black Hawk College Application. (Available at www.bhc.edu)
2. Must take the Accuplacer Test at Black Hawk College or Mercer County High School (Ag. Metal Fabrication Dual Credit Welding and Greenhouse Production Hort. Dual Credit are exempt from the Accuplacer Test unless you wish to earn an associate's degree) Must meet the Accuplacer score requirements before students are allowed to register for the course.
3. Must complete a permission slip "High School Student to Attend Black Hawk College Form". (Forms available in the MCHS counselor's office.) The following information must be included: course number, credit hours, time class is scheduled, parent's signature, & school official's signature (from high school and Black Hawk College).
4. Must contact the counselor's office to register for Dual Credit or BHC classes.
5. Need to register for at least 4 classes per semester at Mercer County High School (Study Hall not included) and be on target for graduation when taking college courses on a college campus. (Students must take at least 2 classes for a total of 5 to 6 credits at BHC in order to remain half-time status at Mercer County High School.)
6. It is the student's responsibility to pay for tuition, transportation expenses, and all related post-secondary school expenses by the deadlines set by Black Hawk College.
7. Students taking course at BHC (other than dual credit courses) must visit the Black Hawk College bookstore prior to the first day of class each semester to purchase all necessary supplies. Students taking Dual Credit courses at MCHS will pay for Dual credit books (in addition to MCHS book rental fees) during registration at Mercer County High School in August.

Paying for Dual Credit and Other College Classes

The Mercer County Community Unit #404 School District is not responsible for expenses associated with any post-secondary expenses including dual credit classes. Students are entirely responsible for all college related expenses for each semester including tuition, books, supplies, fees, transportation and other incidental charges. All payments are made directly to Black Hawk College.

***Dual Credit classes are graded on a weighted scale.

Advanced Placement Courses At Mercer County High School

Advanced Placement courses are designed to prepare students to take the appropriate AP exam in the spring, with the course outlines being based upon the published outlines provided by the Advanced Placement program. These courses are significantly more challenging than regular classes, in that they require a high degree of independent work, significant outside reading, and greater mastery of the material. AP courses are universally considered to be college-level work. Thus, much more is expected of students than in regular courses. For example, students are expected to have mastered all material covered in prerequisite courses. If such material needs review, it is the student's responsibility to seek out that review on his/her own. AP courses may be less teacher-directed and involve more supervised independent study, with the teacher serving as more of a coach than a dispenser of information.

Students requesting AP credit for college must earn specific scores on the AP exam. The scores on the AP exam may qualify students for advanced standing in college. Various colleges and universities have their own standards as to how credit is given for AP courses. The AP exam is graded on a scale of 1 to 5 (5 being the highest). Scores of 3 may earn college credit; a 4 score will earn credit from many colleges; and a score of 5 will earn credit from most colleges. **Parents and students should check with individual colleges to determine their policy on granting credit for AP course work.**

Please note: All students in AP classes will be required to take the first semester exam in that class, in order to give them necessary practice for the AP exam in the spring. Students in AP classes may be required to attend occasional after-school or Saturday labs. Students are responsible for all fees associated with AP testing. (Cost of AP test is around \$100.)

Students who register for an AP credit class must take the AP exam. AP credit classes are graded on a weighted scale.

COURSE DESCRIPTION

ENGLISH

English is the study of literature, composition, grammar, and public speaking:

- * Reading is basic to the English program, and each teacher seeks to improve the reading ability of students.
- * Through frequent writing assignments, students learn to express ideas accurately and effectively.
- * In the study of grammar, students learn correct conventions of style and usage.
- * Speaking situations develop self-confidence and enhance effective group discussions.

ENGLISH I W (Writing Intensive)

(State Course Code: 01001A000)

1004 - A - First Semester

1005 - B - Second Semester

Grade Level: 9

Credit: 1

English I is an introductory course which is focused on connecting the thoughts and ideas gained from junior high studies and enhancing them in preparation for high school studies. Literature for this course will focus on the coming of age. Through literary analysis students will learn to gather evidence from texts and incorporate it in written and oral responses. Students will write in argumentative, informational, narrative, and other modes. The Independent Reading Program, which requires students to select their own books for independent reading, is also part of English I. This course will utilize technology in daily activities as well as assessments.

ENGLISH II

(State Course Code: 01002A000)

1014 - A - First Semester

1015 - B - Second Semester

Grade Level: 10

Credit: 1

Prerequisites: English I or administrative approval

English II is a grammar, composition, and literature course. Composition will include sentence combining and revising, paragraph development, and write in argumentative, narrative, informational, and other modes. Literature for this course will include the study of short stories, plays, poetry, and novels. The Independent Reading Program, which requires students to select their own books for independent reading, is also part of English II. This course will utilize technology in daily activities as well as assessments.

ENGLISH III

(State Course Code: 01003A000)

1024 - A - First Semester

1025 - B - Second Semester

Grade Level: 11

Credit: 1

Prerequisites: English II or administrative approval.

English III will study various authors in American Literature. The course will further develop grammar usage and writing mechanics skills. Students will develop writing skills through various formal and informal assignments that further develop expository, descriptive, persuasive, argumentative and literary analysis skills. Students will evaluate their peers' writing as well as their own writing through peer discussions. Students will also write a formal research paper. In addition, the English III curriculum may include a unit on careers and post-secondary options. The Independent Reading Program, which requires students to select their own books for independent reading, is also part of English III. This course will utilize technology in daily activities as well as assessments.

ENGLISH IV/099

(State Course Code: 01004A000)

1061 - A - First Semester

1062 - B - Second Semester

Grade Level: 12

Credit: 1

Prerequisites: English III or administrative approval.

English IV/English 099 will provide students with skills necessary for academic reading and writing. The course will focus on academic writing and critical reading skills, grammar fundamentals, and MLA and APA documentation.

English 099 is a non-crediting bearing developmental course taught in conjunction with Black Hawk College. After completion of this course, successful students who maintain a C or higher and have an appropriate placement score will have the opportunity to enroll in a credit bearing English Composition 101 course. This course is recommended for students who need to develop reading and writing skills to succeed in college composition courses.

ENGLISH IV –College Prep

(State Course Code: 01103A000)

1066 - A - First Semester

1067 - B - Second Semester

Black Hawk College English Composition 101 & 102 Dual Credit

Grade Level: 12

Credit: 1 Mercer County HS (3 credit hours per semester for BHC) Weighted

Fees: \$75 per semester plus books. Tuition is subject to change as assigned by Black Hawk College

Prerequisites: Writing = appropriate placement score; or ENG 091 "C" or better or Eng 100 "C" or better or concurrent enrollment in ENG 100 AND Reading = appropriate placement score or REA 103 "C" or better

Students must agree to take English Composition 101 & 102.

At the time of registration students may register for *dual credit or college credit.

(*High School English IV and College English credit may be earned at the same time by taking one class. Most colleges allow English Composition I & II to transfer in as college credit eliminating the need to take English I in college. It is the student's responsibility to check with the college(s) of his/her choice to insure the class will transfer.) **Students are responsible for their own college fees, textbooks, and transcripts for first and second semester. Students will meet Monday –Friday at Mercer County High School.**

English 101 Composition I

Prerequisites: See above

Credit ½

Fees: \$75 per semester plus books. Tuition is subject to change

as assigned by Black Hawk College.

The first of two courses in the one-year composition sequence, English 101 introduces students to college-level writing as a process of developing and supporting a thesis in an organized essay. English 101 requires students to read and think critically, and it emphasizes using appropriate style and voice as well as the conventions of standard English and citation.

English 102 Composition II

Prerequisites: Grade of C or better in English 101 and pass Exit Exam Credit ½ Fees: \$75 per semester plus books. Tuition is subject to change as assigned by Black Hawk College.

English 102 is the second of two courses in the one-year composition sequence. English 102 continues exposing students to college-level writing by developing and supporting a thesis in persuasive papers. English 102 requires students to read and think critically and to apply documentation and research skills to a multi-sourced academic research assignment.

SPEECH I (elective)

(State Course Code: 01151A000)

1122 - A - First semester

Grade Level: 11, 12

Credit: ½

(Could replace 2nd Sem Eng IV as a ½ credit per administrative approval)

This elective course covers basic verbal and non-verbal communication skills. Students will learn the nature and purposes of speech communication. Initially, students will spend time improving self-confidence and overcoming fears about speaking before an audience and in group discussions. In preparing and presenting speeches, students will learn to analyze their audience, select appropriate topics, manage voice and gestures, handle visual aids, construct effective introductions and conclusions, and make use of audience feedback. This course will explore speech topics such as: organization, building responsibility, building confidence, listening, nonverbal communication, interpersonal communication, interviewing, group discussion and research.

SPEECH II (elective)

(State Course Code: 01151A000)

1125 - B - Second Semester

Grade Level: 11, 12

Credit: ½

(Could replace 2nd Sem Eng IV as a ½ credit per administrative approval)

This elective course is an extension of Speech I, which is a prerequisite. It continues with and builds on the skills learned in Speech I, providing students opportunities to research, organize, practice, and present ideas with confidence for several different types of speaking situations in which they may find themselves throughout their academic, professional, and personal lives. This course will explore speech topics such as: logic and reasoning, effective language, effective delivery, speeches to inform or persuade, extemporaneous and impromptu speaking, oral interpretation, problem solving and conflict management, debate, parliamentary procedure, and leadership.

CREATIVE WRITING (elective)

(State Course Code: 01104A000)

1123 - A - First Semester

Grade Level: 11, 12

Credit: ½

(Could replace 2nd Sem Eng IV as a ½ credit per administrative approval)

This elective course will take writers through all the writing steps. Students will learn techniques for writing poetry, fiction, nonfiction. Activities will challenge students to analyze word choice, develop a style, build plot, and to illuminate character(s). In addition students will gain information about technical aspects of verse, dialogue, and nonfiction writing.

MYTHS AND LEGENDS (Legends Focus) (elective)

1124 - B - Second Semester

Grade Level: 11, 12

Credit: ½

(Could replace 2nd Sem Eng IV as a ½ credit per administrative approval)

This course traces specific monster case studies across a variety of genres, explores the larger-than-life leaders (on the side of good, and sometimes evil, too) who have become models for how we think of heroism, charisma, and what it means to seek and wield power over others. From the chivalric Knights of the Round Table to the feats of Maui, and surveys stories of wizards, witches, and more, exploring the allure of all things marvelous, strange, and magical. It considers how language itself constitutes a kind of magic; examines magic as technology, or vice versa, and delves into the foundation of myths and legends from around the world.

NOVELS (elective)**(State Course Code: 01061A000)****1126 - Novels I - B - Second Semester****1127 - Novels II - A - First semester**

Grade Level: 11, 12

Credit: ½

(Could replace 2nd Sem Eng IV as a ½ credit per administrative approval)

This elective course is designed to help students develop as a reader, listener, and viewer through independent and collaborative reading. Students will explore a variety of authors, genres, and topics that are popular in 21st century Young Adult literature. Students will connect with and respond to texts through critical reading and analysis of plot, character, theme, and style.

SCIENCE

Knowledge of science should be a top priority in the preparation of every student. In addition to being essential for anyone desirous of a place in the highly technological world of the present and future, science also has its practical side in preparing citizens for the everyday experiences they will encounter. High school science courses are designed to provide training and intellectual background for students in all such areas. Courses are available for: (1) students planning to go to college but not yet sure what their areas of concentration will be; (2) students whose formal education will end upon graduation from high school; and (3) students planning to major in the sciences or a related field.

FRESHMAN PHYSICS**(State Course Code: 03159A000)****1496 - A - First Semester****1497 - B - Second Semester**

Grade Level: 9

Credit: 1

This course is designed to give the students a general view of physics. This freshman level course will review, enhance, and add to physics principles that students have encountered prior to entering high school. Students will have information presented to them in a variety of ways including lectures, demonstrations, and laboratory experiences. Students will continue to develop and sharpen their problem-solving skills through data collection, analyzing data through graphs, and critical thinking.

This course will cover major topics such as Nature of Science, Uniform Motion, Uniform Acceleration, Introduction to Forces, and Energy.

APPLIED SCIENCE**(State Course Code: 03203A000)****1504 - A - First Semester****1505 - B - Second Semester**

Grade level: 10, 11, 12

Credit: 1

Prerequisites: Freshman Physics and Administrative Approval

This course is designed for students taking three years of science to satisfy the school's graduation requirements. Topics covered include problem solving and data collection, matter and its interactions and basic biology.

The traditional lecture-demonstration is interspersed with hands-on laboratory activities.

BIOLOGY**(State Course Code: 03051A000)****1524 - A - First Semester****1525 - B - Second Semester**

Grade Level: 9 - 12

Credit: 1

Prerequisites: General Science/Freshman Physics, freshmen enrollment based on placement testing and prior approval

Biology is a second year science course which covers the general themes of biology. These include biochemistry, cell biology, genetics, development and evolution, biodiversity and ecology, as well as the discussion of the bioethical issues that arise within these themes. The material is presented using various techniques including lecture, cooperative learning and hands-on techniques, and the use of audiovisual materials. Labs are used to reinforce

concepts, as well as acquaint the students with the techniques of experimentation, data collection, and interpretation. Writing, research and critical thinking skills will be integrated into the course to better prepare the student for college level assignments in the sciences.

AP BIOLOGY

(State Course Code: 03056A000)

1605 - A - First Semester

1606 - B - Second Semester

Grade Level: 11, 12 Credit: 1

Prerequisites: Must have completed a minimum of Math III, successful completion, with a C or better average, of Biology, Chemistry, meet AP selection criteria, and mandatory summer assignment

This course is a college level course that follows closely the syllabus recommended by the College Board and prepares students for the Advanced Placement examination in Biology. This course is designed to provide a more in-depth study of the biological sciences for students who have a special interest in Biology or its related fields. It will emphasize comparative Anatomy and Physiology, Ecology, Microbiology, Genetics, Cytology, and Biochemistry. Individual research work and laboratory work will be expected of all students. Students enrolled in Advanced Placement are required to take the College Board Advanced Placement test in May.

ANATOMY-PHYSIOLOGY

(State Course Code: 03053A000)

1544 - A - First Semester

1545 - B - Second Semester

(Taught alternate years with Zoology, offered in 2020-2021)

Grade Level: 10, 11, 12 Credit: 1

Prerequisites: Biology and Chemistry I/Pre AP Chem or taking Chemistry I/Pre AP Chem concurrently

This course will include a yearlong program of intense human anatomy and physiology studies. The areas covered will include medical terminology, basic chemistry, cell and tissue structure, and the 11 systems of the human body (integumentary, skeletal, muscular, nervous, endocrine, circulatory, lymphatic, digestive, respiratory, urinary and reproductive). This course is designed for college preparation, especially for biology and health career majors. Laboratory work will be required, including comparative anatomy dissection lab using the cat. (Offered alternate years with 1564/1565 Zoology)

ZOOLOGY

(State Course Code: 03061A000)

1564 - A - First Semester

1565 - B - Second Semester

(Taught alternate years with Anatomy-Physiology, offered in (2021-2022)

Grade Level: 10, 11, 12 Credit: 1

Prerequisites: Biology and Chemistry I/Pre AP Chem or taking Chemistry I/Pre AP Chem concurrently

This course is a general survey course starting with unicellular organisms and going up through man. In addition to general observations, similarities between phyla will be stressed. The inter-relationships of all life will be studied and identified in a field study. One hour in lab for every four lecture hours. (Offered in alternate years with 1543 Anatomy / Physiology)

CHEMISTRY I

(State Course Code: 03101A000)

1584 - A - First Semester

1585 - B - Second Semester

Grade Level: 10 - 12 Credit: 1

Prerequisites: Biology and Math I or administrative approval

Chemistry I is a science course that deals with measurements, matter and its changes. Topics include atomic and electronic structure, the periodic table, the nuclear atom, formula writing and nomenclature, equations, chemical bonding, quantitative analysis, stoichiometry and gas laws. This course utilizes both lecture and laboratory sessions. The laboratory sessions involve investigations that will allow students the opportunity to "discover" important chemical concepts or reinforce concepts learned in lecture.

PRE AP CHEMISTRY I**(State Course Code: 03149A000)****1600 - A - First Semester****1601 - B - Second Semester**

Grade Level: 10 & 11

Credit: 1

Prerequisites: Biology, Math I and Math 2 (or taking Math II concurrently) or administrative approval

Pre-AP Chemistry is a challenging course that covers a greater depth and breadth of content than Chemistry and successfully serves the purpose to prepare students for AP Chemistry. The course relies heavily on ones ability to solve and manipulate variables, and therefore, it is imperative that students enter this course confident in their algebra skills and mathematical abilities

CHEMISTRY II AP**(State Course Code: 03106A000)****1607 - A - First Semester****1608 - B - Second Semester**

Grade Level: 11, 12

Credit: 1

Prerequisites: Biology, Chemistry I/Pre AP Chem, and Math III (may be concurrently enrolled), or administrative approval.

Chemistry II AP is a continuation of Chemistry I. Topics covered include quantitative aspects of electrons and light energy, periodic trends, intermolecular forces, bonding, organic chemistry, gas laws, thermo chemistry, solution stoichiometry, kinetics, equilibrium and oxidation reduction reactions. Laboratory and lecture sessions work together to develop in students an understanding of the concepts of chemistry and how they relate to the world in which we live.

This class may be taken to meet a high school graduation credit and for Advanced Placement credit in college. The Advanced Placement Test will be given at Mercer County High School in May. Check with specific colleges for required AP test score. Students are responsible for all fees associated with AP testing. (Cost of AP test is approximately \$100.) Students who don't meet the minimum AP score will still receive graduation credit as long as the grade in class is a D or better. This class will require summer course work before class begins.

PHYSICS I**(State Course Code: 0315A000)****1624 - A - First Semester****1625 - B - Second Semester**

Grade Level: 10, 11, 12

Credit: 1

(Taught alternate years with Earth Science, offered in 2020-2021 and 2021-2022)*Prerequisites: Biology, Chemistry I/Pre AP Chem, Math I, Math II, & Math III (prior to or concurrently), or administrative approval. Scientific calculator (required)*

Whether the student plans on going into business, teaching, medicine, agriculture, engineering, or virtually any other field, he or she will find knowledge of physics very useful. Students become familiar with such fascinating topics as motion, forces, structural design, energy interactions, and more. Real-life applications are constantly stressed, and concepts are developed through lecture-demonstrations, computer-assisted activities, a variety of audio-visual aids, and extensive computer interfaced laboratory experiences. A strong emphasis is placed on problem solving. One of the highlights is the annual "Rube Goldberg Competition". Students completing this course will have a good foundation for further study of physics at the college level.

EARTH SCIENCE**(State Course Code: 03001A000)****1501 - A - First Semester****1502 - B - Second Semester**

Grade Level: 10, 11, 12 Credit: 1

(Taught alternate years with Physics, offered in 2020-2021 and 2022-2023)*Prerequisites: Freshman Physics and Biology*

This course is designed to give the students a better understanding of the Earth and Universe. Students will dive into topics such as Earth's place in the Universe and Earth's systems. Students will have information presented to them in a variety of ways including lectures, demonstrations, and laboratory experiences. Students will continue to develop and sharpen their problem-solving skills through data collection, analyzing data through graphs, and critical thinking.

MATHEMATICS

The State of Illinois requires all graduating students to have a minimum of 3 math credits. Starting with the Class of 2010, all students will need one credit of Algebra I and one credit of geometry content plus one additional math credit.

The Mathematics Staff has worked together to form a curriculum that will prepare students from the district for life after high school. The National Council of Teachers of Mathematics suggests that all students graduate from high school proficient in Algebra. The authors of ACT/SAT suggest that to be successful on the test, students should be exposed to Algebra II material. We want our students prepared beyond Algebra II. **Students taking more than one math class must have instructor & administrative approval.**

MATH I FOUNDATIONS

(State Course Code: 0249A000)

2005 - A - First Semester

2008 - B - Second Semester

Grade Level: 9-12

Credit: 1

Prerequisites: Placement by math department, Instructor & Administrative Approval

Math I Foundations involves preliminary and review work to bridge a gap between 8th Grade Math & Math 1. Content will cover skills from both 8th Grade math and Math I.

MATH I

(State Course Code: 02301A000)

2025 - A - First Semester

2026 - B - Second Semester

Grade Level: 9 - 12

Credit: 1

Math I involves the study of linear and exponential functions (with domains in the integers), including application and interpretation of statistics and real-world situations. Students reason about functions and the number and nature of solutions to equations, systems of equations, inequalities and systems of inequalities. Students define congruence using transformational geometry. Students apply transformations to linear, exponential, piece-wise, absolute value, square root and cube root functions. They explore these function types represented algebraically, graphically, numerically in tables and by verbal descriptions.

MATH 2 FOUNDATIONS

(State Course Code: 02049A000)

2010 - A - First Semester

2013 - B - Second Semester

Grade Level: 10-12

Credits: 1

Prerequisites: Math I, Instructor and administrative approval

Math 2 Foundations involves preliminary and review work to bridge a gap between Math 1 and Math 2. Content will cover skills from both Math 1 and Math 2.

MATH 2

(State Course Code: 02302A000)

2065 - A - First Semester

2066 - B - Second Semester

Grade Level: 9 - 12

Credit: 1

Prerequisites: Math I, Instructor and administrative approval

Math 2 involves the study of quadratic and exponential functions represented algebraically, graphically, numerically in tables and by verbal descriptions. Students write equivalent radical, rational and quadratic expressions to reveal information using properties of exponents, completing the square, and/or factoring. Students define similarity using transformational geometry and use this definition to prove geometric theorems. Students learn and apply trigonometric ratios, the Pythagorean Theorem and the relationship between sine and cosine to solve problems. Students recognize, calculate and use conditional probability and independence.

MATH 3**(State Course Code: 02056A000)****2085 - A - First Semester****2086 - B - Second Semester**

Grade Level: 10, 11, 12

Credit: 1

Prerequisites: Math 1 and Math 2 or taking Math 2 concurrently, appropriate math benchmark, & administrative approval.

Math 3 will include many topics including the following: writing expressions in equivalent forms to solve problems, using polynomial identities to solve problems, rewriting rational expressions, understanding that solving equations is a process of reasoning and explain that reasoning, extending the domain of trigonometric functions using the unit circle, proving and applying trig identities, and summarizing, representing and interpreting data on a single count variable or on two categorical variables.

SENIOR MATH**(State Course Code: 02999A000)****2087 - A - First Semester****2088 - B - Second Semester**

Grade Level: 12

Credit: 1

Prerequisites: Math 3

Course will be designed to fit Seniors' needs. Content will prepare students for college placement exam. The student who should take this course is a senior who after graduating is entering the work field, military, Junior College or a four year college as a non-math/science major. The curriculum of the course will review algebra and geometry topics, loan calculations, fractions.

MATH LITERACY 092/094**(State Course Code: 02994A000)****2112 - A - First Semester****2113 - B - Second Semester**

Grade Level: 12 Credit: 1

Prerequisites: Successful completion of 3 years of math

Developmental mathematics path for students who plan to take general education mathematics and/or general education statistics. This course focuses on developing mathematical maturity through problem solving, critical thinking, data analysis, and the writing and communication of mathematics. This course is taught in conjunction with Black Hawk College as a non-credit course for the College. Successful students will have the opportunity to enroll in a credit bearing math course at Black Hawk College after completion of this course (See the Math Department or Black Hawk College for more information). This course is recommended for students interested in a Non-STEM program of study in the future.

PRE-CALCULUS**(State Course Code: 02110A000)****2124 - A - First Semester****2125 - B - Second Semester**

Grade Level: 11, 12

Credit: 1

Prerequisites (not concurrently): Math 1, Math 2, Math 3, appropriate math benchmark, & administrative approval.

Pre-Calculus is a one year course offered to students to give them a background for calculus. Pre-Calculus will enable students to study in depth the topics of advanced algebraic expressions, properties of functions, conic sections, polar coordinates, and complex numbers, sequences, series extensive graphing, trigonometric functions, trigonometric identities, plus probability and statistics. There is in depth use of graphing calculators. It would be best if students purchase his/her own graphing calculator.

CALCULUS**(State Course Code: 02121A000)****2140 - A - First Semester****2141 - B - Second Semester**

Grade Level: 12

Credit: 1

Prerequisites: Math 1, Math 2, Math 3 and Pre Calculus (B or better recommended in Pre-Calculus), appropriate math benchmark, instructor & administrative approval.

This course makes extensive use of plane Geometry and Algebra. Added to these are the notion of limit and limiting processes. This course is for students that want to take calculus but are not ready for the time demands of the AP course. Topics include: functions, limits, derivatives, integrals, transcendental functions, techniques of integration, volume

of revolutions/area and concepts related to physics. Students who take this course are preparing for college study in Business, Economics, Physics, engineering, and Mathematics. Students should have his/her own graphing calculator.

CALCULUS AP

(State Course Code: 02111A000)

2144 - A - First Semester

2145 - B - Second Semester

Grade Level: 12

Credit: 1

Prerequisites: Math 1, Math 2, Math 3 and Pre Calculus (B or better recommended in Pre-Calculus), appropriate math benchmark, instructor & administrative approval.

This course makes extensive use of plane Geometry and Algebra. Added to these are the notion of limit and limiting processes. Topics include: functions, limits, derivatives, integrals, transcendental functions, techniques of integration, volume of revolutions/area and concepts related to physics. Students who take this course are preparing for college study in Business, Economics, Physics, Engineering, and Mathematics. This class may be taken to meet a high school graduation credit and for Advanced Placement credit in college. The Advanced Placement Test will be given at Mercer County High School in May. Check with specific colleges for required AP test score. Students are responsible for all fees associated with AP testing. (Cost of AP test is approximately \$100.) Students will receive graduation credit as long as the grade in class is a D or better. This class will require summer course work before class begins. (See additional AP information on page 7.) To receive AP credit for the class a student must take the AP Exam.

STATISTICS (elective)

(State Course Code: 02201A000)

2154 - A - First Semester

2155 - B - Second Semester

Grade Level: 11-12

Credit: 1

Prerequisites (not concurrently): Math 1, Math 2, Math 3 and administrative approval

Students who take this course are preparing for study in business, nursing, social sciences, science, math and engineering. Topics covered: sampling, data collection, averages, expected value, measures of dispersion, and statistical distributions such as normal, t and Chi Squared, and probability of discrete and continuous variables, counting using combinations and permutations.

ROBOTICS (elective)

(State Course Code: 21009A000)

2182 - First or Second Semester

Grade Level: 10, 11, 12

Credit: 1/2

Prerequisites: Math 2 and one of the following: Pass the Computer proficiency test. (See the counselor for details.)

Robotics is a multi-faceted class that incorporates technology. Students will learn how to use the digital camera, video/digital camera, RCX programming languages and RobotC language. Students will use these skills learned in Lego® Mindstorms robotic unit. Students will program, build and record the progress of robotics to solve a particular situation under given constraint. Students will gain the ability to work in teams. This class works towards applying math, physics and engineering.

SOCIAL SCIENCE

The primary purpose of the Social Science curriculum is to assist each student in the development of intelligent and responsible citizenship and to provide classroom experiences which will help in gaining a knowledge of and allegiance to democratic ideas and values. The faculty members believe that a knowledge of our heritage is necessary for the intelligent, educated person, but also that this knowledge must be matched to the problems of today to be truly worthwhile.

GEOGRAPHY

(State Course Code: 04001A000)

2502 - First or Second Semester

Grade Level: 9-12

Credit: 1/2

A comparative study of the Geography and cultures of the nations and peoples of the Western & Eastern Hemisphere that focuses on the similarities and differences between the U.S. Culture and those of other regional nations.

POLITICAL SCIENCE

(State Course Code: 04153A000)

2544 - First or Second Semester

Grade Level 10, 11, 12

Credit 1/2

This course is designed for the independent, creative, and motivated student who wants a more clear understanding of policy-making bodies, their processes, and how to gain access to them. It will utilize a number of teaching and learning styles and will involve the use of the Internet on a constant basis. The primary goal in this is the encouragement of “out-of-the-box” thinking and communicating. Topics covered will include current social, legal, and political issues.

HOLOCAUST

(State Course Code: 04065A000)

2545 - First or Second Semester

Grade Level: 11 -12

Credit: 1/2

Prerequisites: None

Exploration of the Holocaust in historical perspective by examining European anti-Semitism, political developments in Germany, the rise to power of the Nazis, and the origins of the Holocaust with first-hand accounts, films, and historical texts, concluding with the legacy of the Holocaust in the modern world.

HISTORY AND SPORTS

(State Course Code: 04109A000)

2546 - First or Second Semester

Grade Level: 9 - 12

Credit: 1/2

Prerequisites: None

This history elective will examine the development of sports in America. Our historical study will focus on helping students gain a better understanding of the relationship that sports has with social, economic, cultural, and political forces that are at work in the United States as well as the world. We will examine the historical context as well as the significance of race, gender, ethnicity, and social class. We will do our historical investigation through readings, primary sources, audio, and visual materials as well as class discussions.

CURRENT EVENTS

(State Course Code: 04106A000)

2547 - First or Second Semester

Grade Level: 9- 12

Credit:1/2

Prerequisites: None

This class will provide students with the opportunity to discuss, understand, and explore local, national, international, political, economic and social issues in a respectful, meaningful, and active way. Throughout the term, students will stay up to date on current issues and trends. Because the subject of this class is “contemporary,” topics will vary considerably depending on the current news cycle. Students will be challenged to defend their opinions on many different issues.

GLOBAL CONFLICT (WAR)

(State Course Code: 04065A000)

2548 - First or Second Semester

Grade Level: 10 - 12

Credit: 1/2

Prerequisites: None

This course will aim at promoting the understanding of the major characteristics of wars and global conflicts against the changing political, socio- economic, and technological conditions in which they have taken place throughout history. It will deal with the history of international conflicts and wars, and will investigate the key ideas and issues that have influenced them in the context of numerous case studies.

WORLD HISTORY I

(State Course Code: 04051A000)

2564 - First Semester**WORLD HISTORY II****2565 - Second Semester**

Grade Level: 10, 11, 12 Credit: ½ per semester

A survey of World History from ancient cultures into the 20th Century. Emphasis will be placed on the central historical themes such as Imperialism, Nationalism and racial-religious conflicts, i.e. the Holocaust, European dominance of the Third World and the democratic movements that have shaped the modern world. Students may take the class 1st or 2nd semester or all year.

SOCIOLOGY**(State Course Code: 04258A000)****2622 - Only Second Semester**

Grade Level: 11-12 Credit: 1/2

This course includes study of the nature of sociology, culture, socialization, groups, institutions, communications, cultural development and change. Students will be provided an opportunity to define sociology, analyze the tools and techniques of sociology and understand sociological terminology. Also, students explore the process of socialization; analyze types of groups and interactions among groups; analyze social institutions, their structures and function; understand roles of beliefs, morals, traditions and folk-ways in a culture; analyze social problems in selected cultures; and analyze roles of people in various situations and relationships. Students will be provided opportunities to explain symbolic communications, understand the impact of media on groups, and analyze forms of propaganda and propaganda techniques. Students will be introduced to the concepts of cultural and social change, the impact of science and technology upon people and culture and the effects of cultural contact diffusion.

CIVICS**(State Course Code: 04161A000)****2542 - First or Second Semester**

Grade Level: 12 (required for all graduates) Credit: 1/2

This course is designed to provide an in depth instruction of the elements of productive citizenship and includes state-mandated coverage of the U.S. and Illinois Constitutions. Students will also be introduced to the structure of the American form of government, election laws and procedures, and the dynamics of our two-party dominated political system. In addition, course content would include analysis of social issues and events and their presentation by different media forms, critical-thinking projects, and required documented community service activities in cooperation with local social service and government agencies and institutions.

AMERICAN HISTORY**(State Course Code: 04101A000)****2584 - A - First Semester****2585 - B - Second Semester**

Grade Level: 11 Credit: 1 (required)

A survey of American History focusing on the events, movements, and ideas that have shaped the 19th, 20th centuries and prepare us for the remainder of the 21st.

AP EUROPEAN HISTORY**(State Course Code: 04056A000)****2591 - A - First Semester****2592 - B - Second Semester**

Grade Level: 11-12 Credit: 1 (instructor & administrative approval required)

The AP European History course focuses on developing students' understanding of European history from approximately 1450 to the present. The course has students investigate the content of European history for significant events, individuals, developments, and processes in four historical periods, and develop and use the same thinking skills and methods (analyzing primary and secondary sources, making historical comparisons, chronological reason, and argumentation) employed by historians when they study the past. The course also provides five themes (interaction of Europe and the world; poverty and prosperity; objective knowledge and subjective visions; states and other institutions of power; and individual and society) that students explore throughout the course in order to make connections among historical developments in different times and place.

This class may be taken to meet a high school graduation credit and for Advanced Placement credit in college. The Advanced Placement Test will be given at Mercer County High School in May. Check with specific colleges for required AP test score. Students are responsible for all fees associated with AP testing. (Cost of AP test is approximately

\$100.) Students who do not meet the minimum AP score will still receive graduation credit as long as the grade in class is a D or better. This class may require summer course work before class begins.

D.C. US HISTORY

(State Course Code: 04104A000)

2550 - A - First Semester

2551 - B - Second Semester

Grade Level: 11 - 12

Credit: 1

Prerequisites: Teacher approval

(Can count as American History requirement.)

Dual Credit U.S. History is an introductory college-level U.S. history course. Students cultivate their understanding of U.S. history from c. 1491 CE to the present through analyzing historical sources and learning to make connections and craft historical arguments as they explore concepts like American and national identity; work, exchange, and technology; geography and the environment; migration and settlement; politics and power; America in the world; American and regional culture; and social structures.

PSYC 101 - INTRODUCTION TO PSYCHOLOGY Dual Credit

1111 - Only First Semester

Grade Level: 11-12

Credit: ½ MCHS credit -3 Black Hawk college credit hrs.

3 lecture hours per week- Black Hawk instructor will be on MCHS campus to teach class.

Fees: Full cost at Black Hawk. (around \$450 plus book) for the class – Tuition is subject to change per Black Hawk.

Prerequisites: Appropriate reading placement score or REA 098, and SBS 100 with a “C” or better.

A survey of the field of general psychology without specific emphasis on any particular theory or model of human or animal behavior. Fundamental principles, methods, theories and issues in the field are discussed. Content areas may include learning, thinking, neuroscience, methodology, memory, perception, personality, intelligence, emotion, adjustment, and abnormality among others.

SOC 101 - PRINCIPLES OF SOCIOLOGY Dual Credit

2222 - Only Second Semester

Grade Level: 11-12

Credit: ½ MCHS credit - 3 Black Hawk college credit hrs.

3 lecture hours per week - Black Hawk instructor will be on MCHS campus to teach class.

Fees: Full cost at Black Hawk. (around \$450 plus book) for the class – Tuition is subject to change per Black Hawk

Prerequisites: Appropriate placement score or REA 098, and SBS 100 “C” or better.

Scientific examination of human society and social behavior. Concentrates on human behavior and assumes that it is largely shaped by the groups to which people belong and by the social interaction taking place in these groups. Acquire a basic sociological understanding and sensitivity to the issues of race, class, gender, and ethnicity.

PHYSICAL EDUCATION

All students must be registered for physical education each semester except during the semester when taking health. Students who have medical excuses so stated by a licensed medical doctor are also exempt.

P.E.

(State Course Code: 08001A000)

3102 - A - First Semester

3122 - B - Second Semester

Grade Level: 9, 10, 11, 12

Credit: 1/2

Fees: Lock \$5 (if lost) Gym shirt \$5 shorts \$10

Prerequisites: None

This course will introduce each student to a wide variety of team, individual, and life time sport activities that can be carried over in the future. Some possible activities include flag football, volleyball, softball, badminton, Lacrosse, basketball, pickle ball, speedball, archery, bowling and physical conditioning. Individual skills will be stressed at this level

BODY CONDITIONING

(State Course Code: 08005A000)

HEALTH

HEALTH

(State Course Code: 08051A000)

3262 - A - First Semester

3282 - B - Second Semester

Grade Level: 9 & 10

Credit: 1/2

This required health education course provides students with accurate information which they can utilize to develop healthy attitudes and behavior patterns. Critical thinking and decision making skills are taught and practiced throughout the course as students are encouraged to identify that they have the control to choose healthy behaviors in order to reduce risks. There will be guest speakers throughout the semester, including the Mercer County Health Department, who will present an Abstinence Program. Topics covered in class include: mental health (personality, self-esteem, stress management, mental disorders, and suicide); family and social health (healthy relationships, violence prevention, sexuality, and diversity); human growth and development (reproduction, pregnancy and birth); substance abuse (alcohol, drugs, tobacco, steroids); disease and disorders (infectious disease, AIDS, sexually transmitted diseases, noninfectious diseases and disabilities); personal safety; and First Aid & CPR.

MUSIC

TREBLE CHOIR

(State Course Code: 05110A000)

4000 - A - First Semester

4001 - B - Second Semester

Grade level: 9 – 10 Girls

Credit: 1

11-12 Optional

Prerequisites: None

Treble Choir meets five days a week and welcomes all treble voices at MCHS. Treble choir performs at a number of functions throughout the year including LTC Festival, MCHS concerts, and IHSA Organizational Contest. Optional participation is offered in the IMEA District Junior, Senior, and Vocal Jazz Choirs, ILMEA All State Concert and Vocal Jazz Choirs, IHSA Solo and Ensemble Contest. Students also have the opportunity to audition to be members of various performing groups, including the MCHS Show Choir and Madrigal Ensemble. Music from various historical periods is covered - Middle Ages, Renaissance, Baroque, Classical, Romantic, Twentieth Century, and Pop. Students learn about proper vocal technique, breathing, sight singing, music reading, and music appreciation. Treble choir is a prerequisite for our treble voiced singers to be apart of mixed choir in 11th and 12th grade. Only on a case by case basis will an individual be considered to be a part of mixed choir not as an 11th or 12th grader

MIXED CHOIR

(State Course Code: 05110A000)

4004 - A - First Semester

4005 - B - Second Semester

Grade level: 9 – 12 Boys

Credit: 1

11-12 Girls

Prerequisites: None

Concert Choir meets five days a week and is for beginning to advanced singers. Concert Choir performs at a number of functions throughout the year including LTC Festival, MCHS concerts, and IHSA Organizational Contest. Optional participation is offered in the IMEA District Junior, Senior, and Vocal Jazz Choirs, ILMEA All State Concert and Vocal Jazz Choirs, IHSA Solo and Ensemble Contest. Students also have the opportunity to audition to be members of various performing groups, including the MCHS Show Choir and Madrigal Ensemble. Music from various historical periods is covered - Middle Ages, Renaissance, Baroque, Classical, Romantic, Twentieth Century, and Pop. Students learn about proper vocal technique, breathing, sight singing, music reading, and music appreciation.

FRESH/SOPH BAND

(State Course Code: 05101A000)

4025 - A - First Semester

4026 - B - Second Semester

Jr./Sr. BAND

4021 - A - First Semester

4022 - B - Second Semester

Grade Level: 9 - 12

Credit: 1

Fees: \$20 Uniform Cleaning Fee
To be paid at registration

Prerequisites: Junior High experience, Instructor Approval or Administrative approval

The Mercer County High School band offers a great variety of musical training to help the student appreciate and understand music. The band meets five days per week. Performances include marching at football games and parades, pep-band at basketball games, concerts, IHSA contest, and the Olympic Conference Festival. There are many other performance opportunities including IMEA district/all state, IHSA solo/ensemble and chamber ensembles such as brass quintet, flute choir, clarinet choir, saxophone quartet. The Mercer County High School band gives students the opportunity to excel on their instruments and learn about all aspects of music.

Jazz Band is an extracurricular activity for band students which offer the student an opportunity to play and perform jazz and popular music. The Jazz Band has community performances and participates in college and high school festivals. Membership is chosen through competitive audition and the consent of the instructor.

MUSIC THEORY/PERFORMANCE

(State Course Code: 05113A000)

4034 - A - First Semester

4035 - B - Second Semester

Grade Level: 10-12

Credit: 1

Prerequisites: Must be in Band or Chorus or administrative approval

Music Theory is an in-depth study of the structure of music as it relates to musical notation, melody, harmony, rhythm, meter, and texture. Students must be prepared to study all major/minor scales and modes including all key signatures. In addition, students will apply themselves to analysis of musical scores identifying harmonic intervals, chord structure, chord inversions and chord progressions. Basic chord progressions and voice leading will be played by students on the piano and students will learn sight-singing, dictation and other ear training skills. There will also be opportunities for small performance groups and secondary instrument/vocal groups.

MUSIC APPRECIATION

(State Course Code: 05118A000)

8298 - First or Second Semester

Grade Level: 9-12

Credit: ½

The purpose of this course is to provide students a basic introduction and background in music listening and history. The focus will be on Western music covering all periods from medieval to modern. The student will develop an understanding of the elements that create music, an ability to identify music by historical periods, and an acquaintance with a wide variety of music styles and forms. This will be accomplished through a variety of listening experiences, including listening and discussion sessions in class and reviewing a concert on video. Topics covered will include: Intro, Medieval Period, Renaissance Period, Baroque Period, Classical Period, Romantic Period, 20th Century, Blues, Jazz, Rock n' Roll, and Music/Society.

AGRICULTURE

With Agriculture being more than farming, the course offering can be designed to meet the needs and wants of a variety of individuals. A sequence of study can be designed to fit needs in any of the three following areas: (1) Production, Agriculture, (2) Agri Business, (3) Advanced Education in Agriculture beyond the secondary level.

Study is increased in vegetable propagation, horticulture, and conservation. The Supervised Agricultural Experience Program offers opportunity for individual study while the F.F.A. provides for the development of effective leadership.

Students taking any Agricultural course will be charged a yearly fee of \$25 regardless of number of Ag. courses taken. (Exception: Greenhouse Production I & II Dual Credit and Agricultural Metal Fabrication (Welding) I & II Dual Credit)

INTRODUCTION TO THE AGRICULTURAL INDUSTRY I

(State Course Code: 18001A001)

4502 - A - First Semester

Grade Level: 9-12

Credit: 1/2

This orientation course provides an opportunity for students to learn how the agriculture industry is organized; its major components; and the scope and types of agriculture at the local, state, national and international levels; and the

scope and types of job opportunities in the agricultural field. Basic concepts in plant science, soil science, horticulture, natural resources, agriculture biotechnology, and environmental science will be presented. The development of leadership, employability and computer skills will be taught. Because the FFA and Supervised Agricultural Experience Programs are integral components of this course, students are encouraged to maintain an SAEs and to participate in activities of the organization.

INTRODUCTION TO THE AGRICULTURAL INDUSTRY II

(State Course Code: 18001A001)

4522 - B - Second Semester

Grade Level: 9-12

Credit: 1/2

This orientation course provides an opportunity for students to learn how the agriculture industry is organized; its major components; and the scope and types of agriculture at the local, state, national and international levels; and the scope and types of job opportunities in the agricultural field. Basic concepts in animal science, agribusiness, agriculture mechanics, and agriculture biotechnology will be presented. The development of leadership, employability and computer skills will be taught. Because the FFA and Supervised Agricultural Experience Programs are integral components of this course, students are encouraged to maintain an SAEs and to participate in activities of the organization.

BASIC AGRICULTURAL SCIENCE I

(State Course Code: 18003A001)

4542 - A - First Semester

Grade Level: 9-12

*Credit: ½ **Counted as a Science Credit*

This orientation course builds on the basic skills and knowledge gained in the Introduction to the Agricultural Industry course. Major units of instruction include: soil science and classification, crop seed identification, weed identification, and judging of grain, soybeans and forages. Applied science and math skills and concepts will be stressed throughout the course as they relate to each area. The development of leadership, employability and computer skills will also be taught. Because the FFA and Supervised Agricultural Experience Programs are integral components of this course, students are encouraged to maintain an SAEs and to participate in activities of the organization.

BASIC AGRICULTURAL SCIENCE II

(State Course Code: 18003A001)

4562 - B - Second Semester

Grade Level: 9-12

*Credit: ½ **Counted as a Science Credit*

This orientation course builds on the basic skills and knowledge gained in the Introduction to the Agricultural Industry course. Major units of instruction include advanced plant science, erosion, crop production, animal science and agricultural mechanics. Applied Science and math skills and concepts will be stressed throughout the course as they relate to each area. The development of leadership, employability and computer skills will also be taught. Because the FFA and Supervised Agricultural Experience Programs are integral components of this course, students are encouraged to maintain SAEs and to participate in activities of the organization.

AGRICULTURAL CONSTRUCTION AND TECHNOLOGY I

(State Course Code: 18403A001)

4582 - A - First Semester

Grade Level: 11-12 or instructor approval

Credit: 1/2

This advanced course focuses on the knowledge, hands-on skills, and workplace skills applicable to construction in the Agricultural Industry. Major units of instruction include: personal safety, surveying, hand tools, power tools, and construction skills in carpentry, drywall and painting. Careers such as carpenter, finishers, safety specialists, agricultural engineers and other related occupations will be examined. Improving workplace and computer skills will be a focus. Participation in FFA student organization activities and Supervised Agricultural Experience (SAE) projects is an integral course component for leadership development, career exploration, and reinforcement of academic concepts.

AGRICULTURAL CONSTRUCTION AND TECHNOLOGY II

(State Course Code: 18403A001)

4602 - B - Second Semester

Grade Level: 11-12 or instructor approval

Credit: 1/2

This advanced course focuses on the knowledge, hands-on skills, and workplace skills applicable to construction in the Agricultural Industry. Major units of instruction include: personal safety, hand tools, power tools, construction skills in advanced carpentry, electricity, plumbing and concrete, block laying. Careers such as carpenter, finishers, safety specialists, concrete and block layers, agricultural engineers and other related occupations will be examined. Improving workplace and computer skills will be a focus. Participation in FFA student organization activities and Supervised

Agricultural Experience (SAE) projects is an integral course component for leadership development, career exploration, and reinforcement of academic concepts.

AGRICULTURAL BUSINESS MANAGEMENT I

(State Course Code: 18201A001)

4622 - A - First Semester

Grade Level: 11-12 or instructor approval

Credit: 1/2

This capstone course is designed to develop student skills in the areas of advanced agricultural business procedures, establishment of an agricultural business, managing an agricultural business, and financing an agricultural business. Because FFA and SAEPs are integral components of this course, students are encouraged to maintain SAEPs and to participate in the activities of the FFA organization.

This course meets the requirements for consumer education instruction as required by the School Code of Illinois (Section 27-12.1) Students wishing to meet the state consumer education requirement for graduation must pass Ag. Business Management I and II. All other juniors and seniors may take Ag. Business Management 1 and/or Ag. Business Mgt. II.

AGRICULTURAL BUSINESS MANAGEMENT II

(State Course Code: 18201A001)

4642 - B - Second Semester

Grade Level: 11-12 or instructor approval

Credit: 1/2

This capstone course is designed to develop student skills in the areas of advanced agricultural business procedures: marketing, advertising, sales techniques for agricultural products and services. Product knowledge is stressed as it relates to the regional agricultural economic base. Because FFA and SAEPs are integral components of this course, students are encouraged to maintain SAEPs and to participate in the activities of the FFA organization.

This course meets the requirements for consumer education instruction as required by the School Code of Illinois (Section 27-12.1) Students wishing to meet the state consumer education requirement for graduation must pass Ag. Business Management I and II. All other juniors and seniors may take Ag. Business Management 1 and/or Ag. Business Mgt. II.

ENVIRONMENTAL SCIENCE I

(State Course Code: 18504A001)

4724 - A - First Semester

Grade Level: 10-12 or instructor approval

*Credit: ½ ****Counted as a Science Credit***

This course examines the relationship of agriculture and the environment. The impact of plant and animal production practices on the environment and the adoption of practices leading to improved air, land, and water quality are investigated. Areas of emphasis include: types of ecosystems, management of waste, chemical use, soil conservation, land uses and regulations, and water and air quality. Encouraging students to be conscious and concerned about the environment and recognizing the need to conserve the environment and its resources will be a theme throughout. Careers of environmental technicians, soil and water conservationists, monitoring field technicians, land surveyor, and related occupations will be examined. Improving computer and workplace skills will be a focus. Participation in FFA student organization activities and Supervised Agricultural Experience (SAE) projects is an integral course component for leadership development, career exploration and reinforcement of academic concepts.

ENVIRONMENTAL SCIENCE II

(State Course Code: 18504A001)

4725 - B - Second Semester

Grade Level: 10-12 or instructor approval

*Credit: ½ ****Counted as a Science Credit***

This course focuses on the use and the conservation of agricultural resources. Areas of concentration include protecting the urban and rural environments; identifying tree species and understanding forest ecology; managing the forest and marketing forest products; identifying important wildlife species and their environmental preferences; fish pond ecology and management; wildlife ecology and management; planning and operating a hunting and fishing preserve; and developing a soil and water conservation program. Because FFA and SAEPs are integral components of this course, students are encouraged to maintain SAEPs and to participate in the activities of the FFA organization.

GREENHOUSE PRODUCTION I HORT.

(State Course Code: 18053A001)

4731 - Non-Dual Credit - A - First Semester

4730 - DUAL CREDIT - A -First Semester

Black Hawk College Course #294 Greenhouse Management 3 Credit Hours

Grade Level: 11-12

Credit: 1/2 Weighted (Dual Credit only)

***Counted as a Science Credit**

Fees: Student is responsible for BHC fees if they wish to obtain dual credit (\$25 per credit hour) Tuition is subject to change as assigned by BHC. Students may opt to take the course for high school credit only.

This course focuses on greenhouse management, floral design, and related segments of the horticulture industry. Major units of study include floriculture plant identification, greenhouse structures, and culture of greenhouse crops. Emphasis will be on greenhouse equipment, maintenance, installation and design. Special topics include: fertilizer injectors; pesticide spraying equipment; steam sterilization systems; and heating, cooling and CO2 units. Methods of energy conservation in the greenhouse, crop fertilization and watering practices will also be covered. Agribusiness units will be introduced in merchandising, advertising, and sales. Because FFA and SAEPs are integral components of this course, students are encouraged to maintain SAEPs and to participate in the activities of the FFA organization.

GREENHOUSE PRODUCTION II HORT.

(State Course Code: 18053A001)

4735 - Non-Dual Credit - B -Second Semester

4732 - DUAL CREDIT - B - Second Semester

Black Hawk College Course #292 Greenhouse Crops

3 Credit Hours

Grade Level: 11-12

Credit: 1/2 Weighted (Dual Credit Only)

****Counted as a Science Credit**

Fees: Student is responsible for BHC fees if they wish to obtain credit (\$25 per credit hour) Tuition is subject to change as assigned by BHC. Students may opt to take the course for high school credit only.

This course focuses on greenhouse management, floral design, and related segments of the horticulture industry. Major units of study include care and handling of cut flowers, principles of art applied to floral design, and the mechanics of floral design. This course is designed for major study of greenhouse crops normally produced in the fall/spring or year around. Light, water, fertilization, disease and insect control, use of chemical growth regulators, crop scheduling and cost accounting, and marketing theory are emphasized. Agribusiness units will be introduced in operating a retail floral business. Because FFA and SAEPs are integral components of this course, students are encouraged to maintain SAEPs and to participate in the activities of the FFA organization.

VETERINARY TECHNOLOGY & SMALL ANIMAL CARE I

(State Course Code: 18105A001)

4740 - A - First Semester

VETERINARY TECHNOLOGY & SMALL ANIMAL CARE II

4742 - B - Second Semester

Grade Level: 11 & 12

*Credit: ½ per semester **Counted as a Science Credit*

This course will develop students' understanding of the small and companion animal industry, animal anatomy and physiology, animal ethics and welfare issues, animal health, veterinary medicine, veterinary office practices, and animal services to humans. Career exploration will focus on veterinarian, veterinary lab technicians, office lab assistant, small animal production, research lab assistant, and animal nutrition lab technician. Improving computer and workplace skills will be a focus. Participation in FFA student organization activities and Supervised Agricultural Experience (SAE) projects is an integral course component for leadership development, career exploration and reinforcement of academic concepts.

AGRICULTURAL MACHINERY AND POWER I

(State Course Code: 18449A001)

5662 - A - First Semester

5662 - A - First Semester

Grade Level: 11-12 or instructor approval

Credit: 1/2

This comprehensive machinery service course concentrates on the following areas: assembling and adjusting agricultural equipment, reconditioning and repairing agricultural equipment, and gas welding and cutting. Proper safety and skills will be discussed throughout. Because FFA and SAEPs are integral components of this course, students are encouraged to maintain SAEPs and to participate in the activities of the FFA organization.

This course provides theory and welding experience in the flat, horizontal and vertical positions using various joint designs. Various fillet sized and material thickness will be the welding lab experiences. Shop safety will be emphasized.

AGRICULTURAL MACHINERY AND POWER II

(State Course Code: 18449A001)

5682 - B - Second Semester

Grade Level: 11-12 or instructor approval

Credit: 1/2

This comprehensive machinery service course concentrates on the following areas: using service manuals, fundamentals of multi-cylinder engines; basic hydraulics, power transfer systems, multi-cylinder engine overhaul, diesel theories of operation, organization and management of agricultural machinery dealerships, human relations, and sales techniques. Proper safety and skills will be discussed throughout. Because FFA and SAEPs are integral components of this course, students are encouraged to maintain SAEPs and to participate in the activities of the FFA organization.

AGRICULTURAL METAL FABRICATION I (Welding)

(State Course Code: 18401A002)

5693 - Non-Dual Credit - A- First Semester

5692 - DUAL CREDIT - A -First Semester

AGRICULTURAL METAL FABRICATION II (Welding)

5695 - Non-Dual Credit - B - Second Semester

5694 - DUAL CREDIT - B - Second Semester

Grade Level: 11 - 12

Credit ½ each semester at MCHS

Weighted (Dual Credit only)

Credit: 3 credits each semester for Black Hawk College

Fees: Student is responsible for BHC fees if they wish to obtain dual credit. (\$25 per credit hour) Tuition is subject to change as assigned by BHC. Students may opt to take the course for high school credit only.

Students will complete the following BHC welding coursework for Ag. Metal Fabrication I & II: WLD 101 Intro to Arc Welding, WLD 102 Basic Arc Welding in Flat Position, WLD 105 Oxyacetylene Welding and Cutting, WLD 103 Arc Welding in Flat and Horizontal Position, WLD 117 Arc Welding in Vertical Position and WLD 120 Intro to MIG Welding.

These courses will emphasize the development of basic welding and metalworking skills necessary to succeed in agricultural careers in the agricultural metal fabrication industry. Topics of instruction include: metal identification and properties, metal preparation, use of oxy-acetylene torch, plasma cutting and cutting operations, arc welding, MIG welding, TIG welding, and project design and construction. Improving workplace and computer skills will be a focus.

FOOD SCIENCE TECHNOLOGY I

(State Course Code: 18305A001)

4760 - A - First Semester

FOOD SCIENCE TECHNOLOGY II

4761 - B - Second Semester

Grade Level: 11-12

Credit: ½ per semester

This course provides learning experiences in food science and safety which allow students to apply scientific knowledge and processes to practices used in the development and preservation of food products. Issues of food science and safety are examined from a scientific and technological perspective. Students critically analyze information to evaluate and draw conclusions on the appropriate use of technology to implement food science and safety practices. Units of instruction include: principles of food preservation, food processing, biochemistry of foods, and food selection and consumer health. Careers to be examined include meat inspector, quality control technician, food processor, and sanitation supervisor. Students will use scientific and technological information about food science and safety as a part of developing career plans and personal viewpoints on societal issues concerning the development and preservation of food products. Improving computer and workplace skills will be a focus. Participation in FFA student organization activities and Supervised Agricultural experience (SAE) projects is an integral course component for leadership development, career exploration and reinforcement of academic concepts.

INDUSTRIAL ARTS

INTRODUCTION TO WOODWORKING

(State Course Code: 13052A001)

5403 - A - First Semester

5404 - B - Second Semester

Grade Level: 9-12

Credit: 1

Fees: varies by project

Prerequisites: None

This is a course that provides the students with an introduction to the common hand and power tools used in a woodworking shop. Students will learn how to safely operate these tools to perform basic woodworking tasks and learn wood-joining techniques. During the course, students will construct and finish several projects. Students are responsible for the cost of materials for each project.

WOODWORKING PRODUCTION

(State Course Code: 17007A001)

5413 - A - First Semester

5414 - B - Second Semester

Grade Level: 10

Credit: 1

Fees: varies by project

Prerequisite: Introduction to Woodworking and administrative approval

First semester covers basic hand tools and basic machine operations, furniture construction methods and finishing methods necessary in the carpentry trades. Skills will be developed through projects completed by the students. Emphasis is placed on proper use and safe operation of woodworking and carpentry equipment. Students will also be introduced to some basic CAD programming.

Second semester, students refine their skills through projects and group work. A student may increase his knowledge of machine operations, furniture construction methods. Special attention will be given to those machine operations necessary in the carpentry trades. Particular emphasis is placed on the correct use and safe operation of woodworking and carpentry equipment. Group work includes the construction of cabinet furniture or other kinds of mass-produced wooden products as a medium for training. Students are responsible for the cost of materials for each project.

ADVANCED WOODWORKING

(State Course Code: 17007A002)

5423 - A - First Semester

5424 - B - Second Semester

Grade Level: 11, 12 and administrative approval

Credit: 1

Fees: varies by project

Prerequisite: Woodworking Production

This course is to refine their skills through individual projects and group work. Group work includes the construction of cabinetry, furniture and other kinds of mass produced wooden projects. Students will be exposed to more CAD programming and will complete detailed drawings. Students are responsible for the cost of materials for each project.

FURNITURE DESIGN

(State Course Code: 17007A002)

5433 - A - First Semester

5434 - B - Second Semester

Grade Level: Seniors only and administrative approval

Credit: 1

Fees: varies by project

Prerequisite: Intro to Woods, Woodworking Production and Advanced Woods

Students must be a senior who has previously completed the 3 other wood classes offered with a B or higher grade. Students must also get the permission of the teacher to take the class in the spring before enrolling in the class.

The class will focus on using a computer CAD program to design a piece of furniture. All joinery and detail must be illustrated. Students will then make their own bill of materials and calculate the total cost of the project. The student will then take the plan and construct and finish the project. Students will be responsible for the cost of all materials used and should expect to spend \$200-\$500 (Cost is based on the cost of previous projects done that would be suitable for this class).

BUSINESS EDUCATION

The student gains skills for initial employment and develops an understanding to the world of business through the business courses offered below. It is recommended that every student enroll in at least one semester of Information Processing plus an additional computer class to assist students in typing research papers and other class assignments.

INFORMATION PROCESSING I A (B310)

(State Course Code: 10005A001)

5027 - First or Second Semester

Grade Level: 9-12

Credit: ½

Students learn to use computers for a variety of tasks such as personal information management, spreadsheet creation, database building, and Internet research and safety use. Course work will be completed using the Microsoft Office Suite and Google Docs. Emphasis will be placed on word processing and electronic spreadsheet programs. Students will create and update documents using word processing

INFORMATION PROCESSING I B (B310)

(State Course Code: 10005A001)

5028 - Second Semester

Grade Level: 9-12

Credit: ½

Prerequisites: Information Processing IA

After completion of Information Processing IA, students are strongly encouraged to take this course. They will continue to build on the skills from the previous course through Microsoft Office databases and presentations. Students in this course will learn to use, databases, visual presentations, and desktop publishing applications. Emphasis is placed on using Microsoft in relevant home, school, and work situations.

INFORMATION PROCESSING II

(State Course Code: 10005A002)

5035 - A - First Semester

5036 - B - Second Semester

Grade Level: 10-12

Credit: 1

Prerequisites: Information Processing IA & IB

Students will take the skills learned in Information Processing IA & IB to the next level. They will create and update documents using word processing and desktop publishing programs and put together slideshows, speaker notes and handouts using presentation software.

ACCOUNTING I (B300)

(State Course Code: 12104A001)

5061 - A - First Semester

5062 - B - Second Semester

Grade Level: 11-12

Credit: 1

Prerequisites: (Recommend a C or better in Math I)

Does your future include a degree in business, marketing, management, finance or even cosmetology? No matter what field you choose, an accounting course will likely be required. Why not learn the basics of accounting first to help prepare you for a future accounting class. Accounting has many benefits, regardless of your career choice. The study of accounting is interesting and fun, yet thought-provoking. You will use the Peachtree, the accounting software used by many local businesses, to complete several assignments. Through accounting simulations, students apply their knowledge of accounting to real-world situations. Upon completion of accounting, students will have the basic understanding needed to succeed in future accounting courses at the university or technical college level.

ACCOUNTING II (B400)

(State Course Code: 12104A001)

5066 - A - First Semester

5067 - B - Second Semester

Grade Level: 12

Credit: 1

Prerequisites: Accounting I

Give yourself the edge in future accounting courses by completing a second year of high school accounting. It is a well-known fact that the first few weeks of college accounting equals one year of high school accounting. Strengthen your accounting skills by studying a merchandising corporation. Use simulations and computer software to enhance your knowledge.

WEB PAGE DESIGN & INTERACTIVE MEDIA DEVELOPMENT I (B320)

(State Course Code: 10201A001)

5233 - A - First Semester

5234 - B - Second Semester

Grade Level: 10-12

Credit: 1

Have fun designing web pages using HTML, CSS, Dreamweaver, and Movie Plus. Learn the dos and don'ts of web page design by evaluating existing web pages. In addition students will use Flip video cameras and Movie Plus to create and edit videos.

WEB PAGE DESIGN & INTERACTIVE MEDIA DEVELOPMENT II (B420) (State Course Code: 10201A002)

5239 - A - First Semester

5240 - B - Second Semester

Grade Level: 11-12

Credit: 1

Prerequisite: Web Page Design I

Focus on expanding your web design skills and build on what you learned in the first course. You'll explore several advanced features of Dreamweaver, Javascript, and PHP. Build on your existing Dreamweaver skills, and become familiar with several interactive design techniques using an animation editor. Individual and group projects are assigned, and frequently involve the creation of "real world" interactive websites.

CADD I (COMPUTER-AIDED DESIGN & DRAFTING) (State Course Code: 21102A001)

5223 - A - First Semester

5224 - B - Second Semester

Grade Level: 11-12

Credit: 1

This course will introduce students to the use of a computer as a tool in developing graphical information. The students will explore and create in the areas of engineering design, furniture design, architecture, and landscaping. The students will learn the "Design Process" to organize both the creative and the analytical elements of problem.

CONSUMER EDUCATION (State Course Code: 22210A000)

3650 - First or Second Semester

Grade Level: 12

Credit: ½

This course focuses on the understanding and skills needed to make decisions about the use of resources as a consumer and prevention strategies which contribute to an improved quality of life. The course content includes the following duty areas: utilizing resources and consumer information by applying goal-setting and decision-making skills; evaluating use of resources to meet social, physical and psychological needs; maintaining health standards by applying safety information; applying consumer rights and responsibilities in the marketplaces; accomplishing mutual goals by utilizing human resources; and analyzing resource consumer management skills necessary to make decisions.

This course meets the requirement for consumer education instruction as required by the School Code of Illinois (Section 27-12.1). Instruction will include credit/installment purchasing, budgeting, buying goods and services, comparison of prices, banking, insurances, housing, saving/investments, social security and taxes, and an understanding of the roles of consumers interacting with agriculture, business, labor unions and government in formulating and achieving the goals of the mixed free enterprise system.

YEARBOOK I (State Course Code: 12001A001)

5018 - A - First Semester

5019 - B - Second Semester

YEARBOOK II

(State Course Code: 12002A001)

5021 - A - First Semester

5023 - B - Second Semester

YEARBOOK III

5025 - A - First Semester

5026 - B - Second Semester

Grade Level: 9 - 12

*Credit: 1 *Credit available only for first two times*

enrolling in course. Third enrollment will be for zero credit or must be signed up as a Cadet Teacher with Mr. Whan.

Topics covered will include the various forms of business ownership, including entrepreneurship, as well as the basic functional areas of business (finance, management, marketing, administration, and production). This class project/product will involve designing and constructing the yearbook using computer technology. This class requires outside class time selling advertisements and taking pictures.

FOREIGN LANGUAGE

A foreign language is a course of study that should be considered at the high school level for two primary reasons. A language background could be a very valuable auxiliary skill in securing a job in this ever-changing international economic society. Also, anyone entering a four year university may be required to study a foreign language. The required work and ability at the college level can be difficult and time consuming. Taking a foreign language during high school can help alleviate stressful concerns.

SPANISH I

(State Course Code: 06101A000)

6004 - A - First Semester

6005 - B - Second Semester

Grade Level: 9 - 12

Credit: 1

Spanish I is designed to introduce a beginning language student to the basic skills of language learning: comprehension, speaking, reading and writing. The course is taught with a conversational approach where the students are speaking and interacting on a daily basis. The student is taught the basics of foreign language, which is considerably different from other studies. The course of study covers situations the student may find themselves in to include family, food, sports, activities, etc. During this year course emphasis is placed on learning to appreciate and understand the culture and customs of the many Spanish speaking countries.

SPANISH II

(State Course Code: 06102A000)

6024 - A - First Semester

6025 - B - Second Semester

Grade Level: 10, 11, 12

Credit: 1

Prerequisites: Spanish I

This course is a continuation of Spanish I and expands his/her abilities and vocabulary in a year long course. It is the goal of this course to advance the student to the point that he/she will be able to express themselves on many subjects and to make culture comparisons without cultural judgments. The student will continue extensive oral practice and learn to express him/herself in a more advanced manner. Students also learn through situational exercises.

SPANISH III

(State Course Code: 06103A000)

6044 - A - First Semester

6045 - B - Second Semester

Grade Level: 11, 12

Credit: 1

Prerequisites: Spanish I & II

Spanish III is designed as a year-long course in preparing students for their future careers and/or university studies. This type of study will expand the student's vocabulary, improve their ability to express themselves in written Spanish and further their development of the oral skills through extensive and varied oral activities. Students will be exposed to various Spanish media.

SPANISH IV

(State Course Code: 06104A000)

6064 - A - First Semester

6065 - B - Second Semester

Grade Level: 12

Credit: 1

Prerequisites: Spanish I, II, & III

Students taking this course will experience a review of the language from the grammatical aspect in preparation for university proficiency and CLEP exams. Special emphasis is placed on learning and using the subjunctive mood and advanced commands. In addition to the grammar review they will increase their vocabulary usage. This class will offer the student a chance to become familiar with some Spanish and Latin American Literature through the reading of short stories, dramas and excerpts from novels/newspapers and/or magazines. Emphasis is placed on oral competency and comprehension.

ART

The department feels that everyone has the ability to have successful experiences in art. Furthermore, the department believes the creative experiences, which is the power to imagine and visualize the world around us, broadens human understanding, and encourages good taste and discrimination. Students must have a three-ringed binder that is used solely for art class (1-2 inches is acceptable.) It is also recommended that each student have a soft pencil case that can be attached into the binder.

INTRODUCTION TO ART I

(State Course Code: 05156A000)

8003 - First Semester

INTRODUCTION TO ART II

8005 - Second Semester

Grade Level: 9-12

Credit: ½ per semester

Prerequisites: None

The above courses may be taken for a year or just a semester in any order. This course is a foundation program instilling a strong basic vocabulary of technique, terms, and materials upon which students build their further studies. Projects are presented in the context of art history. A wide variety of procedures and approaches are introduced, stressing a workable solution to project assignments.

8270 STUDIO ART I - A - First Semester

(State Course Code: 05155A000)

8271 STUDIO ART II - B - Second Semester

8272 STUDIO ART III - A - First Semester

8273 STUDIO ART IV - B - Second Semester

8274 STUDIO ART V - A - First Semester

8275 STUDIO ART VI - B - Second Semester

Grade Level: 10-12

Credit: ½ per semester

Prerequisites: Must have previously taken Intro to Art or Studio Art I, II, III, IV, V, & VI will cover drawing and painting.

This class is designed for the student that enjoys art and is ready to take an advanced approach. Allows students to experiment with mixed media and subjects while taking a more creative and personal approach to their work.

2-D Design

(State Course Code: 05162A000)

8226 - A - First Semester

8227 - B - Second Semester

Grade Level: 9-12

Credit 1

The two-dimensional design course offers students an opportunity to learn and organize visual images through the understanding of visual elements, line, shape, tone, texture, and volume. Students examine and apply design principles such as repetition, variety, and movement. Emphasis is on simple graphic skills.

Students must have a three-ringed binder that is used solely for art class (1-2 inches is acceptable.) It is also recommended that each student have a soft pencil case that can be attached into the binder.

3-D DESIGN

(State Course Code: 05158A000)

8230 - B - Second Semester

Grade Level: 10-12

Credit: ½

Perquisites: Intro to Art or 2-D Design

Students will review the elements and principles of design and be challenged to create their ideas in a 3-dimensional form. This will include a variety of media including plaster, cardboard, clay, etc.

PHOTOGRAPHY

(State Course Code: 05167A000)

8232 - A - First Semester

Grade Level: 10-12

Credit: ½

Prerequisite: Intro to Art or 2-D Design

Equipment Required:

Digital Camera (Digital SLR cameras are encouraged, but not necessary. \$100-\$400 for a new or used camera)

Memory Card

Flash Drive

Smart Phone with high quality camera

Students will earn basic digital photography techniques and be challenged to use these techniques with weekly assignments. Editing software will be introduced and utilized on a weekly basis. Students will be required to take photos outside of class time and will be assigned specific subjects for most assignments. There will be additional opportunities for creative freedom with subject matter and editing options. Please contact the instructor if you have questions.

PORTFOLIO DEVELOPMENT

(State Course Code: 05170A000)

8363 - A - First Semester

8364 - B - Second Semester

(Must have instructors approval)

Grade Level: 11-12

Credit: 1 (PASS/FAIL ONLY)

Prerequisites: Introduction to Art, plus one semester of any other art class

This class is designed for the student who wants to develop a portfolio and specialize in one or two areas of art. The course/projects will be designed through a student/teacher conference. A course of study will be determined and a contract for the work issued. Portfolio critiques and self-evaluation will be part of the class work.

PRE-AP STUDIO ART

(State Course Code: 05170A000)

8365 - A - First Semester

8366 - B - Second Semester

(Must have instructors approval)

Grade Level: 10-11

Credit: 1

Prerequisites: At least one year of high school art AND teacher approval

This course offers students the opportunity to begin the development of a portfolio based on the criteria for AP Studio Art. Students will be exposed to a variety of media and techniques and will be challenged to express their own ideas and interests through a collection of ongoing art work. Students who possess a strong interest in the visual arts and are seeking to further develop skill and creativity are encouraged to take this course.

AP STUDIO ART I

(State Course Code: 05171A000)

8369 - A - First Semester

8371 - B - Second Semester

AP STUDIO II (DRAWING)

8373 - A - First Semester

8374 - B - Second Semester

AP STUDIO III (3-D DESIGN)

8375 - A - First Semester

8376 - B - Second Semester

(Must have instructors approval)

Grade Level: 11-12

Credit: 1

Prerequisites: Instructor and administrative approval

The AP Studio Art course is designed for students who are seriously interested in the practical experience of art. AP Studio Art is not based on a written examination; instead, students will develop portfolios to be submitted for evaluation at the end course. The AP Program offers three portfolios: Drawing, 2-D Design, and 3-D Design. The student must show a fundamental competence and range of understanding in visual concerns (and methods). Each of the portfolios asks the student to demonstrate a depth of investigation and process of discovery through the **Concentration** section (Section II). In the **Breadth** section (Section III), the student is asked to demonstrate a serious grounding in visual principles and material techniques. The **Quality** section (Section I) permits the student to select the works that best exhibit a synthesis of form, technique, and content. . Students are responsible for all fees associated with the AP Portfolio. (Cost of AP Portfolio is approximately \$100.)

SPECIAL OPPORTUNITIES

DRIVER EDUCATION

(State Course Code: 08152A000)

7530 - A - First Semester

7535 - B - Second Semester

Grade Level: 9-10

Credit: 1/2

Classroom Fees: \$100.00 MCHS (subject to change) Plus \$20.00 State Fee (subject to change)

Students must pass all classes the semester before they enroll in Driver Education. Classroom attendance is required. The State of Illinois requires at least 30 hours in the classroom. The state does not differentiate between excused or unexcused absences.

Students are registered for Driver Education the sophomore or freshman year according to their birth date. Students must be 15 years old and enrolled in a Driver Education class in order to obtain a permit. Driver Education is taught in two phases – classroom for 1/2 credit, and behind-the-wheel instruction for no credit.

The course is designed to introduce young drivers to the skills and knowledge needed to better operate a motor vehicle in our transportation system. Prior to completion of the semester the student will have met State of Illinois requirements in order to apply for and obtain an Illinois operator's license. Regular attendance in the course is required to meet the 30 hour state requirement.

Reminder:

- **Students must be 15 years old and enrolled in a Driver Education class in order to obtain a permit.**
- **If your permit test (pay \$20 to take and when passed – received your permit) is failed the first time, you have 2 more opportunities to take the test with your driver's education instructors before paying \$20 for 3 more tries.**
- **Class fees are due by a time set by the teacher (within the first month after class begins.**
- **If student is failing multiple classes, they will not drive (no dresses in P.E. count towards this)**

8502 - SPECIAL NEEDS

9502 - SPECIAL NEEDS

Grade Level: 9 - 12

Credit: Open

Prerequisites: MDC/IEP multi-disciplinary conference/Individual Ed. Plan

Students who qualify may receive credit through the special needs program. Training is available in academic subject areas as well as work experience. Some students may also qualify for Secondary Transitional Experience Program (STEP). This program is designed to improve vocational skills, self confidence, and work habits. Up to two hours per day are allowed for selected students to work on or off campus. Off campus positions must be within the Aledo/Joy business community.

SUPPORT SERVICES

(State Course Code: 22006A000)
